

CELEBRATING 25 YEARS – THANK YOU FOR YOUR PATRONAGE

In March 2012 Technicor celebrated 25 years in business.

Business started in 1987 in Orangeville and relocated twice before our present location at 450 Richardson Road in Orangeville.

Specializing in the machining and fabrication of engineered and precision plastic products, our business has evolved over the years by developing people, acquiring equipment, and state-of-the-art processes that enable us to deliver high

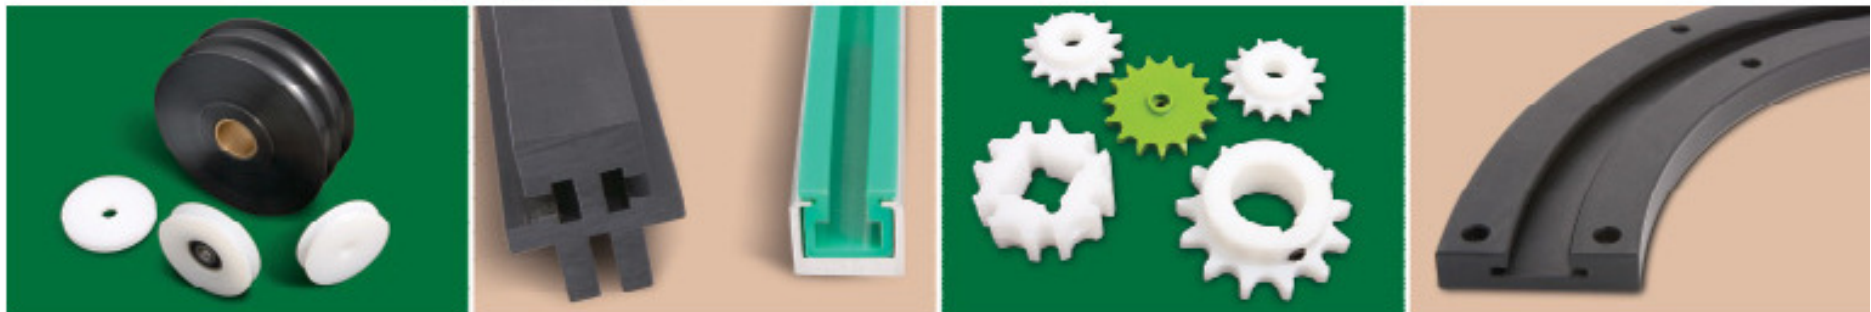

quality products at competitive prices. We provide plastic components to OEM companies in the construction, packaging, food, conveying, mining, and agricultural sectors, as well as many Industrial Distributors.

Orangeville is a desirable location for GTA and Canada-wide customer service, while also providing the lifestyle benefits and stability to our employees. We are proud to offer our customers 110 years of combined employee experience.

Committed to ISO 9001-2008 standards, we are dedicated to quality production, customer service, affordability and continuous improvement - important qualities in reaching a 25th birthday! To learn more about us, visit www.technicor.ca
